About the construction program

This program focuses on building and renovating several kindergartens and primary schools around Ubud, which play a crucial role in the growth and development of the local community.

By joining this construction project, participants will actively contribute to improving local living conditions while working in a creative and relaxed environment.

Your role is essential, and your mission includes the following:

- Renovating and creating drawings and paintings
- Repairing, working with wood, and building furniture
- Renovating materials
- Digging and assembling construction materials

The main role involves assisting in the construction and renovation of community infrastructure, such as schools, classrooms, and playgrounds.
